Q & A

Q4	There used to be 5 years study program for the NA stream in secondary school. Has this changed? Are there still 5 years of study for students in group 2 and group 1?
A	<p>The option of a 5th year in secondary school will continue to be available for eligible students, after they have sat for the SEC examinations at the end of Secondary 4, to pace their learning and take their subjects at a more demanding level to access more post secondary pathways.</p> <p>More information can be found at the following website. https://www.moe.gov.sg/secondary/schools-offering-full-sbb</p>
